

# JAW Bones<sup>®</sup>

The Buildable Art System<sup>™</sup>

Model Idea Booklet - Ages 7 & Up

Welcome to JAWBONES®  
The Buildable Art System™  
with construction pieces that  
swivel, ratchet and snap  
together in countless ways.  
The possibilities for unique  
creations are limited only  
by one's imagination. The

precision pieces in this set will provide many hours of  
enjoyment for any budding artist, architect, sculptor,  
designer, engineer or builder.

The basic piece shapes and types of connections shown  
on pages 3-5 are used to build the models or to create  
original works of art. At the top of pages 7-23 is the name  
and a photograph of the model to be built. Below the  
model illustrated are several close up photographs  
which show the important construction details. On the  
left side of the page is a complete list which shows all  
of the pieces necessary to build the model at the top of  
the page.

I sincerely hope that you will enjoy playing with your  
JAWBONES® construction set.

Philip Shoptaugh, inventor
