

JAWBones[®]

The Buildable Art System[™]

35 Pieces Idea Booklet

Welcome to JAWBONES[®]
The Buildable Art System[™]
with construction pieces that
swivel, ratchet and snap
together in countless ways.
The possibilities for unique
creations are limited only
by one's imagination. The

precision pieces in this set will provide many hours of
enjoyment for any budding artist, architect, sculptor,
designer engineer or builder.

The basic piece shapes and types of connections shown
on pages 3-7 are used to build the models or to create
original works of art. At the top of pages 8-17 is the name
and a photograph of the model to be built. Below the
model illustrated is a close up photograph which shows
important construction details. On the left side of the
page is a complete list which shows all of the pieces
necessary to build the model at the top of the page.

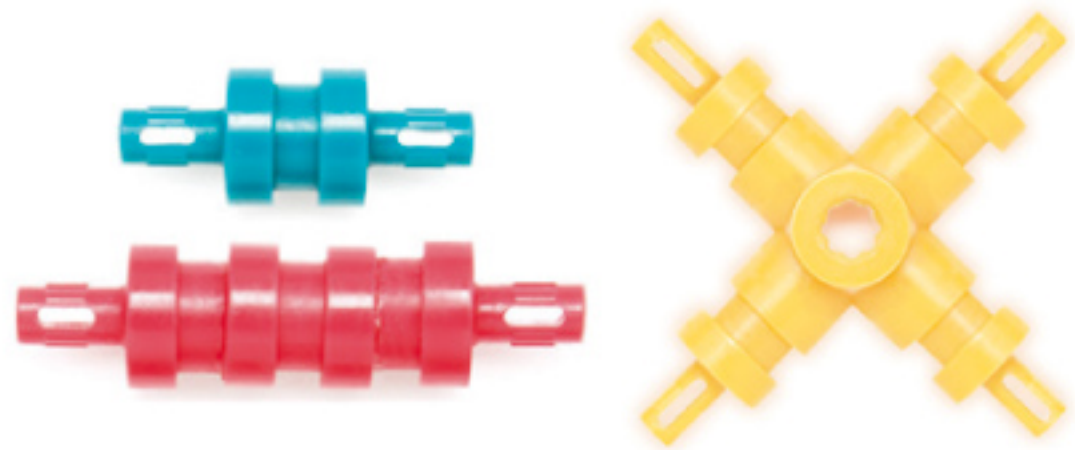

I sincerely hope that you will enjoy playing with your
JAWBONES[®] construction set.

Philip Shoptaugh, inventor
